

# Tour of Namie Energy: The Only Mobile Hydrogen Station in Tohoku Utilizing Renewable Energy-Based Hydrogen

## Fukushima Hydro Supply Co., Ltd. Mobile Hydrogen Station "NAMIenergy" (Namie Energy)

Located in the Tanashio Industrial Park in Namie Town, Futaba District, Fukushima Prefecture, you can tour this mobile hydrogen station utilizing hydrogen produced mainly from renewable energy at the Fukushima Hydrogen Energy Research Field within the same industrial park. There are 23 of these stations nationwide, with only this one in Tohoku.

Namie Town has declared its commitment to using hydrogen for recovery, utilizing the entire town as a hydrogen demonstration field and implementing various initiatives.
