17:30		Return to Sendai

Kakuda I.T.P (Industrial Techno Park), the major domestic factory of IRIS OHYAMA Co., Inc.

- Tour this cutting-edge factory that has realized a next-generation advanced labor-saving production line where robots play an active role from production to shipment!
- Visit the showroom, manufacturing lines, storage warehouse, shipping workspace, and product testing processes. You might even get a chance to see the meeting room where the weekly new product development meetings are held.
- Kakuda I.T.P, which started full-scale production of domestically produced masks during the COVID-19 pandemic, handles about 25,000 items and produces around 1,000 new products annually. Experience the secrets behind Iris Ohyama's strength in meeting diverse needs.
