

# ~ An industrial machinery manufacturer with a 100-year history, advancing SDGs~ Yamamoto Co., Ltd.

つくる力で想いをかたちに。

人々の生命維持に欠かすことのできない食糧生産と環境保全に、ものづくりで貢献する。  
私たちが中心となり、つながりと相互扶助の意味を成す「結の精神」を基に、これからも皆様と共に歩み続けます。

- Yamamoto Co., Ltd., an industrial machinery manufacturer, is strengthening its commitment to SDGs, producing environmental-related equipment such as the "Plasir," a device that identifies plastic materials.
- The company has achieved "zero emissions" continuously since 2008 by sorting waste into 43 categories, with the goal of reducing the amount of waste ultimately sent to landfills to less than 1%.
- Solar panels are installed on the premises, capable of generating 500 kilowatts, the peak power usage of their factory. Currently, the total power generation is 1.9 megawatts, equivalent to the electricity consumption of 520 households.
- You can observe a site that is thoroughly environmentally conscious!
